Dear Prospective Family,

We are delighted that you are interested in learning more about Montessori at Samish Woods.

Samish Woods offers a rare opportunity for your child to experience a preschool through 6th grade Montessori education. We are one of thousands of Montessori schools that have been educating children with proven results for 100 years. All lead teachers have college degrees and are Montessori certified. Samish Woods is an approved Washington state private school with a limited number of scholarships available.

Situated in Bellingham, Washington on a beautifully treed site with a year round creek, Samish Woods offers a living environmental laboratory where peaceful interactions and problem solving skills are modeled and taught. Creative explorations in the arts are valued along with integrated math, language and science. This assures every child a well rounded education. Each child receives individual attention balanced with small and whole group lessons. Children learn at their own pace and receive developmentally appropriate lessons. The multi-age, three year cycle provides the stability and continuity needed for each child to thrive as an individual and within a class community.

There are typically 20-24 children in each classroom with a lead teacher and an assistant.
